Crown College Quick Facts
1300 Students
14:1 Faculty/Student Ratio
90+% Students Receiving Aid

Athletics:
11 Sports in NCAA Division III

Location:
Beautiful 215 acre lakeshore campus near St. Bonifacius, Minn. Just 35 minutes west of Minneapolis.

Bachelor of Science
BIOLOGY

Biology Overview
This major is intended to broadly prepare students in the biological sciences. With careful selection of electives, students may be equipped to pursue graduate work, medical studies, research, field biology, industrial work, government positions, or other related areas.

Mathematics and Science Department
The purpose of the Math and Science Department is to broadly train students in the biological sciences so that they will be prepared to pursue graduate work, medical studies, research, or vocations in industry, governmental agencies, education, and other related areas. The pre-nursing program provides students the opportunity to meet the prerequisites of nursing programs while obtaining a strong biblical and liberal arts background.

A second mission of the Math and Science Department is to provide a variety of liberal arts courses to support the general education programs of the College and to assist students in developing basic math skills they can apply to their programs of study.

The Math and Science Department strives to integrate biblical studies with math and science to develop excellence in academics and personal character. Our goal is that students will have a vibrant spiritual life showing developing skills in evangelism and discipleship and that students will become confident, competent leaders in their vocations.
### Freshman Year

**Fall Semester—15 credits**
- BIB 135X Old Testament History: 3
- ENG 131 English Composition: 3
- HIS 131 Western Civilization to 1715 or SOCI 230 Sociology: 3
- PED P.E. Elective or Varsity Sport: 1
- SCI 243 General Biology I: 4
- SOC 102 First Year Focus: 1

**Spring Semester—16 credits**
- BIB 136X New Testament History: 3
- ENG 132 Writing and Literature: 3
- HIS History Elective: 3
- SCI 244 General Biology II: 4
