Loan Interest Rate & Fees

Your starting interest rate will be 3.90%

After the starting rate is set, your rate will then vary with the market.

Your Starting Interest Rate (upon approval)
The starting interest rate you pay is not dependent on your credit score or other factors. All SELF IV loans are charged the same interest rate.

Your Interest Rate during the life of the loan
Your rate is variable. This means that your rate could move lower or higher than the rate on this form. There is a limitation that the interest rate cannot increase or decrease more than 3% over any four consecutive calendar quarters. The variable rate is based upon the LIBOR Rate (as published in the Wall Street Journal). For more information on this rate, see the reference notes.

There is no maximum interest rate; however, there is a limitation that the interest rate cannot increase or decrease more than 3% over any four consecutive calendar quarters.

Loan Fees

Late Charge: Up to $20 for payments not made within 15 days of the due date. Returned Payment charge: up to $15.00

About this example
This example assumes that you are in school for 4 years and have a 1 year grace period before beginning repayment and you have up to 10 years from when you leave school to repay the loan. You may have an option to select up to two more years of interest only payments without extending your payment term. If your balance is $18,750 or more on all your SELF loans you may have up to 15 years after you leave school to repay the loans. These options may cause the interest you pay to be different than the example shown.
