Educational Partner

UCA

ABOUT US

Crown is a fully accredited college that offers quality academics, convenient online options, and a boldly Christian environment.

DUAL ENROLLMENT OPTIONS

Crown is excited to offer Post-Secondary Enrollment Options (PSEO) to qualified UCA students. PSEO is a dual enrollment program that allows 11th and 12th-grade Minnesota students to enroll in free college courses that earn them credits simultaneously for both their high school diploma and college degree.

Students take classes in a hybrid format in which Crown's online instructor partners with a teacher from UCA. The courses have a low student to instructor ratio. All students are supported by a dedicated academic advisor.

SCHOLARSHIPS

A Crown PSEO Scholarship is available to students who attend Crown dual enrollment classes (PSEO) and then enroll as fulltime first-year students the following academic year. The maximum amount of this scholarship is \$500 per year if attending on campus.

A Crown Christian High School Partner Grant of \$2,000 per year is available to students who enroll as full-time first-year students and who attended a partner Christian High School institution or a homeschool/PSEO Crown partner.

The Crown PSEO Scholarship and the Christian High School Partner Grant are renewable and stackable. Students must maintain Satisfactory Academic Progress to renew their scholarship.

Students may also qualify for additional aid. Students must demonstrate financial need as determined by the FAFSA.

Students enrolling in an online degree program are eligible for a 25% off tuition discount.

APPLICATION INFO

- Students must have a minimum 3.0 high school GPA
- No standardized tests are required for admission
- The tuition and books are FREE for Minnesota students
- Application Deadlines:
 - August 1st
 - December 1st

To apply, students must complete and submit the following:

- An online Crown application
- A MN Dept. of Education form
- An official high school transcript

Fall Semester 2025 Aug 27-Dec 19

BUS 130 Concepts of Personal Finance (3 Cr)

A practical study of what Scripture says about financial stewardship, tithing, giving, investing, and the use of debt. Students will develop personal budgets and financial goals. Discussion will also include the use of various types of credit and insurance. This course cannot be taken in addition to FIN 210 - Personal Financial Planning.

ECO 2332 Intro to Microeconomics (3 Cr)

This course examines fundamental microeconomic principles concerning consumer and organizational behavior. Microeconomic analysis will be applied through a biblical and ethical lens to consumer markets, labor markets, financial markets and public policy.

ENG 1510 College Writing and Research (3 Cr)

This course emphasizes the fundamentals of effective writing in the context of the elements of rhetoric: writer, audience, and purpose. Students write narrative, informative, and persuasive compositions and a documented research paper.

LAN 256 Spanish II (4 Cr)

This builds on the work of Spanish I as an introduction to the sounds, vocabulary, and structures of the Spanish language through listening, speaking, reading and writing as well as awareness of the cultural context of the language. Communicative skills are reinforced through practice in integrated laboratory activities. Prerequisite: LAN 255 or consent of the instructor

MAT 131 College Algebra (3 Cr)

This course provides a short review of Algebra II, followed by a concise study of algebraic, polynomial, exponential and logarithmic functions and their graphs. Linear, quadratic and systems of equations are included, along with their applications. This course provides a foundation for students wishing to take calculus. Prerequisite: High School Algebra II

MAT 2431 Calculus I (Part A) (2 Cr)

This course is the first of a two-part series that covers the first semester of college calculus as defined by Crown College (MAT 243 - Calculus I). Students must take both parts to get credit for Calculus I. Following a review of limits, functions, and trigonometry, derivatives are studied in depth exploring linear, power, and implicit functions. Applications of the derivative are explored including related rates, rates of change, curve sketching, and optimization. Not to be taken in addition to MAT 243.Prerequisite: MAT 131 or high school Pre-Calculus

POL 2511 US Federal Government (2 Cr)

Beginning with the underpinnings of government and a survey of the Constitution and Bill of Rights, this course focuses on the forms and functions of the Legislative, Executive and Judicial Branches of the U.S. Government. This course may not be taken in addition to POL 2510 - American Government.

Spring Semester 2026 Jan 14-May 15

BUS 130 Concepts of Personal Finance (3 Cr)

A practical study of what Scripture says about financial stewardship, tithing, giving, investing, and the use of debt. Students will develop personal budgets and financial goals. Discussion will also include the use of various types of credit and insurance.

BUS 140 Theory & Practice Social Entrepreneurship (3 Cr)

Innovative social entrepreneurship and leadership training course connecting a student's unique skills, talents and passions with the goal of creating a gospel centered project that will help make a difference in the lives of others. Students will strengthen communication, critical thinking and problem solving abilities, while developing 21st century team-building, and leadership skills. Students will relate major philosophical leadership principles with real world application as they create a realistic plan to execute their ideas in diverse local and global contexts.

COM 1515 Public Communication (3 Cr)

This course provides the student with an introduction to the theory of the communication process. Topics include analyzing a target audience, organizing material, preparing an effective method of delivery, and developing informative and persuasive speeches. Each student will deliver speeches that are videotaped and evaluated.

ENG 2341 Creative Writing (3 Cr)

In this course, students will explore different styles of writing and develop their own voices through reading assignments and writing exercises. Students will submit and revise works in multiple genres. This course may not be taken in addition to ENG 341 - Creative Writing Seminar. Prerequisite: ENG 131 or ENG 1510

LAN 335 Spanish III (3 Cr)

The purpose of the second-year courses is to increase the student's ability to speak, understand, read, and write the Spanish language. The courses will also increase the student's awareness of Hispanic culture and will review aspects of Spanish grammar. Prerequisite: LAN 256 or consent of the instructor

MAT 1410 Precalculus (3 Cr)

This course covers concepts that are foundational for calculus. Topics include trigonometry, analytic geometry, probability, vectors, sequences and series. Students will also be introduced to the topic of limits. Prerequisite: MAT 131

MAT 2432 Calculus I (Part B) (2 Cr)

This course is the second of a two-part series that covers the first semester of college Calculus as defined by Crown College (MAT 243 - Calculus I). Students must take both parts to get credit for Calculus I. Integration is introduced including work with the definite integral and integral applications. Inverse functions and their derivatives, including exponential, logarithmic and inverse trigonometric functions are also covered. Not to be taken in addition to MAT 243. Prerequisite: MAT 243

POL 2512 US Political Processes (2 Cr)

A continuation of POL 2511, this course begins with an overview of state and local governments and then focuses on key components of the U.S. political process. Topics include political parties, interest groups, the media, public policy and political participation. This course may not be taken in addition to POL 2510 - American Government. Prerequisite: POL 2511

SOC 2530 Intro to Human Geography (3 Cr)

This course provides an introduction to physical and cultural geography by exploring pressing global issues related to spatial interconnections. Using the lens of geography, we will uncover how global interconnections and geographical interdependence shape the world as we know it. We will further understand how individual actions at the local scale have social, cultural, and religious environmental impacts around the world.
