

ABOUT US

Crown is a fully accredited college that offers quality academics, convenient online options, and a boldly Christian environment.

DUAL ENROLLMENT OPTIONS

Crown is excited to offer Post-Secondary Enrollment Options (PSEO) to qualified SWCHS students. PSEO is a dual enrollment program that allows 11th and 12th-grade Minnesota students to enroll in free college courses that earn them credits simultaneously for both their high school diploma and college degree.

Students take classes in a hybrid format in which Crown's online instructor partners with a teacher from SWCHS. The courses have a low student to instructor ratio. All students are supported by a dedicated academic advisor.

SCHOLARSHIPS

A Crown PSEO Scholarship is available to students who attend Crown PSEO and then enroll as full-time first-year students the following academic year. The maximum amount of this scholarship is \$1,000 per year if attending on campus.

A Crown Christian High School Partner Grant of \$2,000 per year is available to students who enroll as full-time first-year students and who attended a partner Christian High School institution or a homeschool/PSEO Crown partner.

The Crown PSEO Scholarship and the Christian High School Partner Grant are renewable and stackable. Students must maintain Satisfactory Academic Progress to renew their scholarship.

Students may also qualify for additional aid. Students must demonstrate financial need as determined by the FAFSA.

Students enrolling in an online degree program are eligible for a 25% off tuition discount.

APPLICATION INFO

- Students must have a minimum 3.0 high school GPA
- No standardized tests are required for admission
- The tuition and books are FREE for Minnesota students
- Application Deadlines:
 - August 10th
 - December 15th

To apply, students must complete and submit the following:

- An online Crown application
- A MN Dept. of Education form
- An official high school transcript

Continuing students do not need to re-apply

**CROWN
COLLEGE**

Fall Semester 2026 Aug 26-Dec 18**BUS 130 Concepts of Personal Finance (3 Cr)**

A practical study of what Scripture says about financial stewardship, tithing, giving, investing, and the use of debt. Students will develop personal budgets and financial goals. Discussion will also include the use of various types of credit and insurance.

BUS 140 Theory and Practice of Social Entrepreneurship (3 Cr)

Innovative social entrepreneurship and leadership training course connecting a student's unique skills, talents and passions with the goal of creating a gospel centered project that will help make a difference in the lives of others. Students will strengthen communication, critical thinking and problem solving abilities, while developing 21st century team-building, and leadership skills. Students will relate major philosophical leadership principles with real world application as they create a realistic plan to execute their ideas in diverse local and global contexts.

BUS 2413 Business Management & Ethics (Pt. 1) (2 Cr)

This course is the first of a two-part series that provides students with a practical introduction to the key principles and processes of business management. Special attention will be given to ethics in business.

LAN 256 Spanish II (4 Cr)

This builds on the work of Spanish I as an introduction to the sounds, vocabulary, and structures of the Spanish language through listening, speaking, reading and writing as well as awareness of the cultural context of the language. Communicative skills are reinforced through practice in integrated laboratory activities. Prerequisite: LAN 255 or consent of the instructor

LAN 336 Spanish IV (3 Cr)

The purpose of the second year courses is to increase the student's ability to speak, understand, read, and write the Spanish language. The courses will also increase the student's awareness of Hispanic culture and will review aspects of Spanish grammar. Prerequisite: LAN 335 or consent of the instructor

MAT 130 Mathematics Survey (3 Cr)

A mathematics course designed for the liberal arts or general education purposes, including quantitative literacy and mathematical competency. The course consists of problem solving and mathematical modeling. Topics include set theory, operations, percent and decimals, linear equations and their applications, slopes, parallel and perpendicular lines, systems of equations, counting techniques, probability and descriptive statistics.

MAT 131 College Algebra (3 Cr)

This course provides a short review of Algebra II, followed by a concise study of algebraic, polynomial, exponential and logarithmic functions and their graphs. Linear, quadratic and systems of equations are included, along with their applications. This course provides a foundation for students wishing to take calculus. Prerequisite: High School Algebra II

Fall Semester 2026

Aug 26-Dec 18

MAT 2431 Calculus I (Part A) (2 Cr)

This course is the first of a two-part series that covers the first semester of college calculus as defined by Crown College (MAT 243 - Calculus I). Students must take both parts to get credit for Calculus I. Following a review of limits, functions, and trigonometry, derivatives are studied in depth exploring linear, power, and implicit functions. Applications of the derivative are explored including related rates, rates of change, curve sketching, and optimization. Prerequisite: MAT 131 or high school Pre-Calculus

MAT 244 Calculus II (4 Cr)

A continuation of MAT 243, this course includes differentiation and integration operations as applied to trigonometric, logarithmic, exponential functions and their inverses. Also studied are the techniques of trigonometric substitutions, partial fractions, integration by parts, indeterminate, and improper integration. Application of integration is made to surface and volume problems in the areas of physics, engineering, economics and biology. Prerequisite: MAT 2431 & 2432

POL 2510 American Government (3 Cr)

This course examines the politics and processes of American government at the national, state and local level: the constitutional foundations of American government; national institutions, chiefly the presidency, Congress and Supreme Court; and the political forces that shape American government, including elections, parties and interest groups.

SCI 2451 Chemistry I Part 1 (2 Cr)

This course is the first of a two-part series that covers the first semester of college chemistry as defined by Crown College (SCI 245 - General Chemistry I). Students must take both parts to get credit for General Chemistry I. Topics include measurements, atomic structure, chemical reactions, stoichiometry, electronic structure, and periodicity of elements. College level laboratory work includes the use of spreadsheets, keeping a scientific notebook writing a formal laboratory report. Prerequisite: MAT 131 or MAT 243 or two years of high school Algebra (including Algebra II) or a math ACT score of at least 20 or a math SAT score of at least 480.

Spring Semester 2027 Jan 13-May 14**BUS 130 Concepts of Personal Finance (3 Cr)**

A practical study of what Scripture says about financial stewardship, tithing, giving, investing, and the use of debt. Students will develop personal budgets and financial goals. Discussion will also include the use of various types of credit and insurance.

BUS 2400 Entrepreneurship (3 Cr)

This course will introduce students to the essential knowledge and skills of entrepreneurship, focusing on the planning, management, marketing, financing, and other entrepreneurial functions. The course will also focus on the role that the entrepreneur plays in contemporary society. Particular attention will be given to mission as it relates to continuous innovation, adaptation, sustainability and organizational learning.

BUS 2414 Business Management & Ethics (Pt. 2) (2 Cr)

This course is the second of a two-part series that provides students with a practical introduction to the key principles and processes of business management. Special attention will be given to ethics in business. Building on materials from the first course, this class introduces additional management and ethical principles.

Prerequisite: BUS 2413

COM 1515 Introduction to Public Communication (3 Cr)

This course provides the student with an introduction to the theory of the communication process. Topics include analyzing a target audience, organizing material, preparing an effective method of delivery, and developing informative and persuasive speeches. Each student will deliver speeches that are videotaped and evaluated.

LAN 335 Spanish III (3 Cr)

The purpose of the second-year courses is to increase the student's ability to speak, understand, read, and write the Spanish language. The courses will also increase the student's awareness of Hispanic culture and will review aspects of Spanish grammar. Prerequisite: LAN 256 or consent of the instructor

LAN 411 Spanish Lang Short Stories (3 Cr)

A study of selected Spanish language short stories and novellas. Emphasis is given to discovering and discussing such topics as religion, politics, exercise of power, issues of gender, view of history, racial and ethnic relations, class, and national identity. The course provides the opportunity for development of reading and speaking skills in Spanish. The course is conducted in Spanish. Prerequisite: Two years of college Spanish or its equivalent

MAT 1410 Precalculus (3 Cr)

This course covers concepts that are foundational for calculus. Topics include trigonometry, analytic geometry, probability, vectors, sequences and series. Students will also be introduced to the topic of limits. Prerequisite: MAT 131

MAT 2432 Calculus I (Part B) (2 Cr)

This course is the second of a two-part series that covers the first semester of college Calculus as defined by Crown College (MAT 243 - Calculus I). Students must take both parts to get credit for Calculus I. Integration is introduced including work with the definite integral and integral applications. Inverse functions and their derivatives, including exponential, logarithmic and inverse trigonometric functions are also covered.

Prerequisite: MAT 2431

SCI 2452 Chemistry I Part 2 (2 Cr)

This course is the second of a two-part series that covers the first semester of college chemistry as defined by Crown College ([SCI 245 - General Chemistry I](#)). Students must take both parts to get credit for General Chemistry I. Topics include thermochemistry, chemical bonding, molecular geometry, the properties of gases, acids, bases, and pH. College level laboratory work includes the use of spreadsheets, keeping a scientific notebook writing a formal laboratory report. Prerequisite: SCI 2451
