

ABOUT US

Crown is a fully accredited college that offers quality academics, convenient online options, and a boldly Christian environment.

DUAL ENROLLMENT OPTIONS

Crown is excited to offer Post-Secondary Enrollment Options (PSEO) to qualified UCA students. PSEO is a dual enrollment program that allows 11th and 12th-grade Minnesota students to enroll in free college courses that earn them credits simultaneously for both their high school diploma and college degree.

Students take classes in a hybrid format in which Crown's online instructor partners with a teacher from UCA. The courses have a low student to instructor ratio. All students are supported by a dedicated academic advisor.

SCHOLARSHIPS

A Crown PSEO Scholarship is available to students who attend Crown dual enrollment classes (PSEO) and then enroll as full-time first-year students the following academic year. The maximum amount of this scholarship is \$1,000 per year if attending on campus.

A Crown Christian High School Partner Grant of \$2,000 per year is available to students who enroll as full-time first-year students and who attended a partner Christian High School institution or a homeschool/PSEO Crown partner.

The Crown PSEO Scholarship and the Christian High School Partner Grant are renewable and stackable. Students must maintain Satisfactory Academic Progress to renew their scholarship.

Students may also qualify for additional aid. Students must demonstrate financial need as determined by the FAFSA.

Students enrolling in an online degree program are eligible for a 25% off tuition discount.

APPLICATION INFO

- Students must have a minimum 3.0 high school GPA
- No standardized tests are required for admission
- The tuition and books are FREE for Minnesota students
- Application Deadlines:
 - August 10th
 - December 15th

To apply, students must complete and submit the following:

- An online Crown application
- A MN Dept. of Education form
- An official high school transcript

Continuing students do not need to re-apply

**CROWN
COLLEGE**

Fall Semester 2026 Aug 26-Dec 18**BUS 130 Concepts of Personal Finance (3 Cr)**

A practical study of what Scripture says about financial stewardship, tithing, giving, investing, and the use of debt. Students will develop personal budgets and financial goals. Discussion will also include the use of various types of credit and insurance.

DEM 1231 Basics in First Aid (1 Cr)

This course provides the knowledge and skill need for injury and illness recognition, first aid care and accident prevention. Students who successfully complete this course will receive American Heart Association Certification in Community First Aid, AED and CPR.

ECO 2332 Intro to Microeconomics (3 Cr)

This course examines fundamental microeconomic principles concerning consumer and organizational behavior. Microeconomic analysis will be applied through a biblical and ethical lens to consumer markets, labor markets, financial markets and public policy.

ENG 1510 College Writing and Research (3 Cr)

This course emphasizes the fundamentals of effective writing in the context of the elements of rhetoric: writer, audience, and purpose. Students write narrative, informative, and persuasive compositions and a documented research paper.

ENG 2510 Survey of American Literature (3 Cr)

An overview of non-dramatic literature of the United States, showing its development from colonial times to the present. Students also work individually and collaboratively to explore topics, works, and authors representing multi-cultural voices in the changing canon of American literature.

LAN 336 Spanish IV (3 Cr)

The purpose of the second year courses is to increase the student's ability to speak, understand, read, and write the Spanish language. The courses will also increase the student's awareness of Hispanic culture and will review aspects of Spanish grammar. Prerequisite: LAN 335 or consent of the instructor

MAT 131 College Algebra (3 Cr)

This course provides a short review of Algebra II, followed by a concise study of algebraic, polynomial, exponential and logarithmic functions and their graphs. Linear, quadratic and systems of equations are included, along with their applications. This course provides a foundation for students wishing to take calculus. Prerequisite: High School Algebra II

MAT 2431 Calculus I (Part A) (2 Cr)

This course is the first of a two-part series that covers the first semester of college calculus as defined by Crown College (MAT 243 - Calculus I). Students must take both parts to get credit for Calculus I. Following a review of limits, functions, and trigonometry, derivatives are studied in depth exploring linear, power, and implicit functions. Applications of the derivative are explored including related rates, rates of change, curve sketching, and optimization. Prerequisite: MAT 131 or high school Pre-Calculus

Fall Semester 2026 Aug 26-Dec 18**SCI 2451 Chemistry I Part 1 (2 Cr)**

This course is the first of a two-part series that covers the first semester of college chemistry as defined by Crown College (SCI 245 - General Chemistry I). Students must take both parts to get credit for General Chemistry I. Topics include measurements, atomic structure, chemical reactions, stoichiometry, electronic structure, and periodicity of elements. College level laboratory work includes the use of spreadsheets, keeping a scientific notebook writing a formal laboratory report. Prerequisite: [MAT 131](#) or [MAT 243](#) or two years of high school Algebra (including Algebra II) or a math ACT score of at least 20 or a math SAT score of at least 480.

SCI 2471 Physics I Part 1 (2 Cr) - tentative

This course is the first of a two-part series that covers the first semester of college physics as defined by Crown College (SCI 247 - Physics I). Students must take both parts to get credit for Physics I. This course is an introduction to the major concepts of physics. Major topics include dimensions, vectors and units, kinematics, Newton's laws of motion, friction, work and energy, impulse and momentum, and collisions. Prerequisite: Prerequisite: MAT 131 or MAT 243 or two years of high school Algebra (including Algebra II) or a math ACT score of at least 20 or a math SAT score of at least 480.

SOC 2530 Intro to Human Geography (3 Cr)

This course provides an introduction to physical and cultural geography by exploring pressing global issues related to spatial interconnections. Using the lens of geography, we will uncover how global interconnections and geographical interdependence shape the world as we know it. We will further understand how individual actions at the local scale have social, cultural, and religious environmental impacts around the world.

Spring Semester 2027 Jan 13-May 14**BUS 140 Theory & Practice of Social Entrepreneurship (3 Cr)**

Innovative social entrepreneurship and leadership training course connecting a student's unique skills, talents and passions with the goal of creating a gospel centered project that will help make a difference in the lives of others. Students will strengthen communication, critical thinking and problem solving abilities, while developing 21st century team-building, and leadership skills. Students will relate major philosophical leadership principles with real world application as they create a realistic plan to execute their ideas in diverse local and global contexts.

COM 1515 Introduction to Public Communication (3 Cr)

This course provides the student with an introduction to the theory of the communication process. Topics include analyzing a target audience, organizing material, preparing an effective method of delivery, and developing informative and persuasive speeches. Each student will deliver speeches that are videotaped and evaluated.

Spring Semester 2027 Jan 13-May 14**DEM 2156 - Emergency Medical Responder Training (3 Cr)**

This course provides the essential knowledge needed to provide emergency care in circumstances of acute injury or illness. Students who successfully complete this course will receive Emergency Medical Responder certification.

ECO 2332 Intro to Microeconomics (3 Cr)

This course examines fundamental microeconomic principles concerning consumer and organizational behavior. Microeconomic analysis will be applied through a biblical and ethical lens to consumer markets, labor markets, financial markets and public policy.

ENG 2341 Creative Writing (3 Cr)

In this course, students will explore different styles of writing and develop their own voices through reading assignments and writing exercises. Students will submit and revise works in multiple genres. Prerequisite: ENG 131 or ENG 1510

LAN 335 Spanish 411 Language Short Stories and Novellas (3 Cr)

A study of selected Spanish language short stories and novellas. Emphasis is given to discovering and discussing such topics as religion, politics, exercise of power, issues of gender, view of history, racial and ethnic relations, class, and national identity. The course provides the opportunity for development of reading and speaking skills in Spanish. The course is conducted in Spanish. Prerequisite: Two years of college Spanish or its equivalent

MAT 1410 Precalculus (3 Cr)

This course covers concepts that are foundational for calculus. Topics include trigonometry, analytic geometry, probability, vectors, sequences and series. Students will also be introduced to the topic of limits. Prerequisite: MAT 131

MAT 2432 Calculus I (Part B) (2 Cr)

This course is the second of a two-part series that covers the first semester of college Calculus as defined by Crown College (MAT 243 - Calculus I). Students must take both parts to get credit for Calculus I. Integration is introduced including work with the definite integral and integral applications. Inverse functions and their derivatives, including exponential, logarithmic and inverse trigonometric functions are also covered. Prerequisite: MAT 243

SCI 2452 Chemistry I Part 2 (2 Cr)

This course is the second of a two-part series that covers the first semester of college chemistry as defined by Crown College (SCI 245 - General Chemistry I). Students must take both parts to get credit for General Chemistry I. Topics include thermochemistry, chemical bonding, molecular geometry, the properties of gases, acids, bases, and pH. College level laboratory work includes the use of spreadsheets, keeping a scientific notebook writing a formal laboratory report. Prerequisite: SCI 2451

SCI 2472 Physics I Part 2 (2 Cr) - tentative

This course is the second of a two-part series that covers the first semester of college physics as defined by Crown College (SCI 247 - Physics I). Students must take both parts to get credit for Physics I. This course is an introduction to the major concepts of physics. Major topics include gravitation, rotational motion, oscillatory motion, waves and properties of sound. Prerequisite: SCI 2471

SOC 2530 Intro to Human Geography (3 Cr)

This course provides an introduction to physical and cultural geography by exploring pressing global issues related to spatial interconnections. Using the lens of geography, we will uncover how global interconnections and geographical interdependence shape the world as we know it. We will further understand how individual actions at the local scale have social, cultural, and religious environmental impacts around the world.
